School Report for 2009–2010 School Year

School Mission Statement

Montlake is an innovative leader in creating a safe, inclusive, and high performing environment where diversity and creativity are honored and fostered. We want every member of our school community to be a reader, be a writer, and be a problem solver. We have a highly trained, dedicated staff willing to “go the distance” with every child in our school. High quality instruction is the cornerstone of our success.

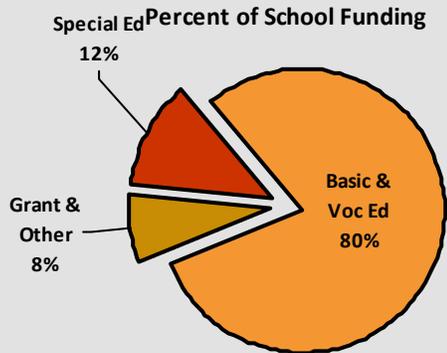

School Goals

MATH: We will increase the % of students meeting typical growth from 76% (well above average) in spring 2010 to 80% (well above average) in spring 2011. **READING:** We will increase the % of students meeting typical growth from 63% (above average) in spring 2010 to 69% (above average) in spring 2011. **SCIENCE:** At least 80% of our 5th graders will meet or exceed our state science standards on the MSP, an increase from 73% in 2010. **STUDENT SAFETY:** We will decrease the % of students who report they feel unsafe in a location on campus from 60% on the 2010 district’s student climate survey to 30% who report they feel unsafe.

School Description & Plans to Achieve Goals

Montlake is a welcoming school with strong family involvement and high academic standards. We celebrate our inclusive environment by diversity is embraced. We are an Advanced Learning Opportunity school that provides access to enrichment and rigor for all students. We use social skills curriculum to teach friendship skills. We offer visual arts, technology, PE, drama, and organic gardening during the day. Parents regularly volunteer in classrooms, tutor children, and coordinate enrichment offerings. We expect students to read (or be read to) at least 20 minutes daily at home. It is strongly recommended that those with MAP reading scores below the 50th percentile access Lexia daily, a finely tuned at-home reading program. We encourage ongoing practice of math games taken from our Everyday math curriculum to reinforce math concepts and basic facts. **MATH:** We challenge students to use higher level thinking skills to solve math problems and explicitly teach problem solving strategies. We support our advanced learners by challenging them with above grade level materials and have after school math clubs. We hold an annual Family Math Night to engage students and their families in our math program and share strategies for students’ success. **LITERACY:** Our purpose is to create successful and joyful life-long readers and writers. We are committed and trained to use proven, best teaching practices. Our focus this year is to enhance all students’ reading comprehension skills: inquiry, analysis, and prediction. We engage our children in a writing workshop model where students collaborate to revise, edit, and publish. Students learn to incorporate the 6 Traits of writing (content, organization, voice, fluency, word choice, and conventions). Students write in a variety of styles including narrative, expository, persuasive, creative, and fiction. **SCIENCE:** Science instruction is based upon exciting inquiry-focused discussions, hands-on investigations, and teaching scientific writing skills.

Annual Budget Report

Total School Budget:

\$1,529,753

Per-Student Funding:

\$6,295

All financial data are from the 2010-11 recommended budget.

Invitation to Participate

One of the goals of having School Reports is to support our families as critical partners with us in your student’s academic success.

To get involved, please contact Claudia Allan, Principal, callan@seattleschools.org.

District Mission Statement

Enabling all students to achieve to their potential through quality instructional programs and a shared commitment to continuous improvement.
