Our entire school community is committed to providing an outstanding education for each scholar, eliminating the opportunity gap, and infusing the celebration of our diversity into every day of learning. Once again, Denny International was recognized by the State of Washington as a Washington Achievement Award Winner, among other awards, in celebration of the state’s top-performing schools! In the areas of math and science, Denny is increasingly a STEM (Science Technology Engineering and Math) school. In addition to our Gateways to Technology class, science teachers at all three grade-levels were trained in Project Lead the Way to integrate enhanced STEM skills into the science curriculum! In order to empower our scholars as readers and writers, we are continuing as an Affiliate School with Columbia Teachers’ College in NY to bring Readers/Writers Workshop aligned to the new Common Core State Standards to our classrooms! Other highlights include: Scholars in our Spanish Dual Language program are entering high school with on average three full years of high school Spanish already earned! Our large music programs are continuing to win awards at competitions around the West Coast! More and more of our outstanding teachers are earning the prestigious National Board certification!
