Subject: Availability for Parent Meetings

Here are my available evenings to meet with parents at buildings that are closing. I can also be available on weekends if that's better for your community. Assume I'm available from 6:30 p.m. on. If none of these dates are feasible, give me a call and we'll work out something else.

The purpose of these meetings is to bring information about enrollment directly to families impacted by closure/consolidation so they know all of their options.

I look forward to hearing from you to schedule a meeting (or to add me to an already-planned meeting). Thanks,

Tracy
