Kindergarten	<b>4 doses DTP</b> provided the last dose is on or after the fourth birthday	<b>3 doses</b> provided the last dose is on or after the fourth birthday	<b>2 doses***</b> both given on or after the first birthday and at least 28 days apart	<b>3 doses****</b>
1st –12th Grades	<b>3 doses DTP/DT/Td</b> provided the last dose is on or after the fourth birthday	<b>3 doses</b> provided the last dose is on or after the fourth birthday	<b>2 doses***</b> both given on or after the first birthday and at least 28 days apart	<b>3 doses****</b>
17-Year Olds	Booster dose of Tetanus/Diphtheria (Td). (Will not be excluded for non-compliance)			

## Vaccines Being Phased In through School Year 2009-10 to Meet the Requirements Shown Above:

- † MMR – During the 2004-05 school year 5<sup>th</sup> grade students are not required to have a second dose. Beginning in 2005-06, all students will be required to have two doses.
- † HepB – The three-dose series is required through 7<sup>th</sup> grade in 2004-05, 8<sup>th</sup> grade in 2005-06, 9<sup>th</sup> grade in 2006-07, 10<sup>th</sup> grade in 2007-08, 11<sup>th</sup> grade in 2008-09, and 12<sup>th</sup> grade in 2009-10.

## Exemptions:

- X Medical exemption requires a physician's signature
- X Personal/religious exemption requires parent or guardian signature

## More detailed information:

Vaccine doses given four (4) days or less before the minimum interval or age will be counted as valid.

- \* Children who are past their 7th birthday should not be given DTP vaccine. Such children can fulfill this requirement with three doses of DTP, TD, Td, or a combination of these.
- \*\* Laboratory evidence of immunity to measles, mumps or rubella may be substituted for the vaccine.
- \*\*\* Students who have received one dose single antigen measles and one dose MMR are an exception. A second MMR is recommended and preferred but students can be considered fully immunized with two measles-containing vaccines.
- \*\*\*\* For those beginning **or** completing the series: the second dose 1-3 months after the first; the third dose 2-6 months after the second and on or after 6 months of age. The series must not be completed in less than four months but must be completed within nine months after school registration. (There is no maximum interval between doses. The series does not need to be restarted if an interval was longer than the recommended one.)
