** Broadview-Thomson & Maple are shown as representative examples of typical transportation costs			
Cost is fuel & contract cost. Does not include extra time or operational costs such as the transportation department.			
Costs are for general education routes only--no special education routes or taxis.			
This information is based on the 2007 ridership count the week of October 15, 2007. Technically cost per student can increase or decrease slightly based on whether a given route on a given day takes a bit longer or a bit shorter.
