

ENERGY USE HOW DID YOUR SCHOOL RANK?

Is your school an energy hog? Compare it to other schools below.
The lower the number, the less energy is used per square foot.

2006/07 SHARED SAVINGS AWARD CEREMONY

Natural Resource Conservation

Sense It,

Learn It,

Live It!

We can conserve natural resources effectively when we Sense It, Learn It, and live It. Use your senses to look for lights left on, hear leaking faucets, or feel an overheated/overcooled room. Learn how to reduce and reuse resources where you can. Live as an environmental steward every day. Our examples have a big impact on the world around us!

NEWS / ANNOUNCEMENTS

Do you want more information about the Shared Savings Program, digital utility graphs, and conservation opportunities? All that and more can be found on the SPS Conservation website at

www.seattleschools.org/area/conservation

2007/08 Utility Graphs

Utility use for Sept—Nov has been received and audited.

School use graphs were mailed to each school's Custodial Engineer and Principal along with a progress report detailing changes in use. Graphs for electricity, natural gas, water, and sewer for each facility can be found on the conservation website. NOTE: Use for 2007/08 is compared to last year, not 05/06, to more

accurately reflect ongoing changes in facility use. Questions? contact Nicole Riss at 252-0599.

Special Thanks

Yet again, Leschi has topped the list for the most energy efficient building per square foot. Great job! Check out the back of this program to see how your school ranks.
