Ronald J. English, SEPA Official

Date: January 30, 2004

This Final Supplemental Environmental Impact Statement (SEIS) discusses the potential environmental impacts that could result from the Cleveland High School Historic Renovation, Demolition and New Construction Project. This EIS supplements previous environmental review for the Seattle School District's "Building Excellence" capital improvement program and was included in the 2000 Supplemental EIS on Phase II of Building Excellence.

This Final SEIS provides the project level analysis specific to the project site and responds to issues raised by the Draft SEIS for the Cleveland project. The result of that effort was the development of two alternatives, which are evaluated in the Supplemental EIS. The alternatives include:

- District's Preferred Alternative, Demolish and Relocate Gymnasium (Alternative 1)
- Retain Gymnasium in Place (Alternative 2)

As part of the environmental review process, the Seattle School District (District) sought public comment on the scope of the environmental analysis. Based on that process, the District has determined that this analysis would evaluate the following elements of the environment:

- Geology
- Water
- Plants
- Land Use
- Historic Resources
- Recreation
- Athletics and Urban Design
- Light, Glare and Shadows
- Traffic and Transportation

The Final SEIS incorporates and responds to comments submitted in writing during the review period or at the public hearing on the Draft SEIS. The Final SEIS, along with program, engineering, and financial information, will be used by the Superintendent to develop a recommendation to the School Board regarding this project.

Appeal procedures for this document are stated in School Board Resolution 1987-17, paragraph 10 A.

Any aggrieved person may appeal the Director's compliance with Chapter 43.21C RCW and Chapter 197-11 WAC by filing a notice of appeal with the responsible official within 15 days of the date of public notice of issuance of a final DNS or availability of a final EIS. The DNS or EIS should identify this appeal process and the deadline for an appeal, but any failure to provide such notice shall not be construed to waive the deadline. The responsible official shall promptly arrange for review by the Superintendent or the Board.

Any person wishing to appeal this document must file the appeal by:

- **Date:** February 17, 2004
- **Time:** 4:30 p.m.

The appeal should include the name and address of the Appellant and the basis for the appeal.
