

# IMMUNIZATIONS

## FREQUENTLY ASKED QUESTIONS

**Q: My child will be entering kindergarten in the fall and will not be receiving the required immunizations until after the time to enroll. Will that be a problem at enrollment?**

**A: No. Many students finish their series during the summer before kindergarten entrance. Just be sure to provide the dates your child received the immunizations on/or before the start of school. You may receive a letter during the summer stating that your child is out of compliance with the state law and giving you an opportunity to provide the dates those vaccinations were received.**

**Q: My child is entering school at a higher grade level than kindergarten and has not completed all the immunization requirements. Will this be a problem?**

**A: Your student will be expected to have all immunization requirements completed before registration unless it is too soon for the next in the series to be given. If it is too soon to receive another vaccination, the student will be conditionally accepted until that vaccination can be given. If the student has not begun the series, the first vaccination should be received prior to registration.**
