**POLICY**

It is the belief of the Board of Directors and Superintendent that they are partners in the governance team of Seattle Public Schools. Both must do their jobs well for the organization to be successful and for the governance team as a whole to be effective.

To this end, the Seattle School Board shall exercise those powers that are expressly required by law, those implied by law, and those essential to the declared purposes and goals of the District. The Board shall delegate to the Superintendent such powers as may be required to manage the Seattle schools in a way consistent with board direction and policy and state and federal law. The Board and Superintendent will set annual goals and meet regularly during the year to evaluate the effectiveness of the team.
