

Million Word Reading Log

Second Grade

Name: _____

Class: _____

Directions: Each box represents 500 words read. Color in a box for every 500 words you read. One page is 50,000 words!

Estimate how many words in a book (don't count) by...

- Estimating the number of words per page and multiplying by the number of pages.
- Estimating time of adult reading to your child: parents read about 125 words per minute to their second graders (one box every 4 minutes).
- Estimating time of kids reading: second graders read about 100 words per minute (one box every 5 minutes).
