**Overview for Running Start Students**

- 1. When seeking course approval and when signing up to attend running start, students must submit a letter outlining how their college courses will help them complete each section of each portfolio. They need to be as specific as possible.**
- 2. Aside from the "required for graduation of all students" requirements, running start students may submit a variety of work samples different from TCS work. Students must address in the section reflections how each piece of work shows proficiency in each portfolio area. Work must be of "C" quality or higher.**
- 3. It is the responsibility of the running start student to monitor progress, make appointments with advisors, and to complete the portfolio in a timely manner.**

*I have read and agreed to the above statements and have obtained a copy of TCS portfolio requirements.*
