The Basic Rules of Seattle Public Schools 2018 - 2019

Positive Beliefs, Positive Relationships, Positive Learning, and Positive Partnerships in Seattle Public Schools

Meaningful learning occurs in environments that are safe, positive, consistent, and predictable. When the principles of cultural intelligence, safety, respect, honesty, accountability, and equity are exhibited throughout a system, trusting relationships result and excellence for each and every student can be achieved.

Seattle Public Schools is committed to furthering cultural intelligence that respects and values the diversity in schools and in classrooms across the district. This commitment serves to guide decisions in promoting fair and equitable treatment for all.

A safe and healthy school climate is important in promoting a sense of belonging and supporting excellence for each and every student. Positive school climates include:

- A vision based on shared beliefs, values, rituals, and stories that grow as part of the culture.
- Collaborative relationships and respectful interactions between students, families, and staff.
- Fair and equitable treatment that respects and values all cultures.
- A physical environment that is welcoming, safe, and accessible to all.
- Regular assessment and review of school climate survey by students, families, staff, and stakeholders.

In addition to a positive school climate, we understand that students at times may experience emotional and/or physical stressors. During these times, students are encouraged to share with a trusted adult at school, and staff are committed to supporting each student so that s/he is fully able to participate in the school day.

Sometimes additional counseling, support, and resources may be helpful. A number of community agencies offer assistance and information on health and human services available to King County residents. You can call 800-621-4636, 206-461-3610, or 211 for additional information.

Our Student Rights and Responsibilities sets forth the rules and regulations of Seattle Public Schools regarding student conduct. It is created in compliance with the requirements of state law and aligned with the Seattle Public Schools Strategic Plan. It references sections of the Washington Administrative Code (WAC) that govern use of corrective response (i.e., discipline, suspension, and expulsion) for any student by a school district.

The foundation of Seattle Public Schools' discipline policy is one of prevention, by establishing a positive school climate that includes shared school-wide behavioral expectations and a common language for talking about expected behavior that is inclusive of students, families, educators, administrators, volunteers, and other staff (within a Positive Behavior Interventions and Supports (PBIS) framework). Discipline procedures and intervention strategies aim to maximize instructional time and reduce out of school consequences for behavior. This document applies to all students and is designed to educate all members of the educational community as to the rules, regulations, and due process procedures. We encourage families to review the Student Rights and Responsibilities with their student. It describes expectations at school as well as what students may expect from adults at school.

Seattle Public Schools Commitments

Eliminating opportunity gaps and ensuring educational excellence for each and every student is the issue of our time.

Seattle Public Schools recognizes:

- There is racial disproportionality in disciplinary responses within the district;
- Each situation involving discipline may be complex with underlying factors that requires staff to understand the function of students' behaviors;
- Mitigating and aggravating factors should influence the disciplinary decision-making process; and
- There is an impact when using exclusionary practices.

Seattle Public Schools staff are committed to:

- Knowing, caring for, and establishing positive relationships with students;
- Supporting the whole child;
- Holding all students to high expectations, and providing quality and effective instruction;
- Teaching the development of positive social, emotional, and behavioral skills in students;
- Using a variety of ways to shape behavior once harm has occurred, instead of relying on exclusionary practices;
- Implementing a disciplinary response that would be the least disruptive to the student-school relationship, and maximizes instructional time;
- Partnering with families, other staff, and community-based organizations in the event that a disciplinary response has occurred; and
- Examining their own implicit bias, while working from a culturally trauma-responsive lens that utilizes verbal de-escalation skills in an effort to create conditions in our schools that allow students to be successful.

Mission

Seattle Public Schools is committed to ensuring equitable access, closing the opportunity gaps, and excellence in education for every student.

What Happens if a Student Breaks a Rule?

Whenever a student is accused of breaking a rule, they have the right to explain their side of the story to their teacher, support staff, or school leader before they are disciplined. A family may also meet with school staff to help identify, problem solve, and consider other disciplinary responses. However, if the offense is significant, the student may be suspended or expelled.

A school leader may emergency expel a student immediately, provided there is sufficient reason to believe that the student's presence is dangerous and/or it would cause substantial disruption within the school to have them present in classes, for activities, and at other related school events. If a student is suspended, expelled, or emergency expelled they will receive the written Notice of Disciplinary Action (NDA) within 24 hours.
