

Guidance for Daily COVID-19 Screening of Staff and Visitors

The Washington State Department of Health asks that all employers use this guidance to help prevent the spread of COVID-19 by screening staff and visitors daily.

COVID-19 Screening: What to Do

Screen **ALL** who enter your workplace:

- All staff before the start of each work shift
- All visitors

Ask these questions to everyone:

Since your last day of work, or last visit here, have you had any of these symptoms?

- Cough
- Shortness of breath or difficulty breathing
- Or at least two of these symptoms:
 - Fever
 - Chills
 - Repeated shaking with chills
 - Muscle pain
 - Headache
 - Sore throat
 - New loss of taste or smell

If the answer is **YES** to any of these questions, you may not enter the workplace. Contact your health care provider.

OR, should you have concerns about any signs of symptoms of illness, contact your health care provider.
