Dear Dual Language Immersion Spanish Families at Denny International Middle School,

At this time, **you need to make a choice** about where your son or daughter will attend high school next year. Here is some information to help clarify the process for 8th grade students at Denny International Middle School in Dual Language Immersion (DLI) Spanish to enroll in high school.

**February 4-15, 2019** is the Open Enrollment for School Choice period for Seattle Schools this year. Find forms at [https://www.seattleschools.org/admissions/school_choice](https://www.seattleschools.org/admissions/school_choice).

If your child wants to attend their **currently assigned high school** (this is based on your home address; most students from Denny are assigned to Chief Sealth International High School):

- You do NOT need to submit any forms. To check your currently assigned school, use our Assignment Lookup Tool http://www.seattleschools.org/cms/one.aspx?portalId=627&pageld=14242.

If Chief Sealth International High School is **not** your currently assigned high school or if your child wants to attend a different high school:

- **You need to submit the School Choice form** available on the Open Enrollment and School Choice page [https://www.seattleschools.org/admissions/school_choice](https://www.seattleschools.org/admissions/school_choice). Indicate that high school as your **first choice**. If you select Chief Sealth International High School, put “Dual Language Immersion” on the form. Submit the form by **February 15, 2019** when Open Enrollment ends.

We strongly encourage your son or daughter to continue in the Dual Language Immersion pathway at Chief Sealth International High School. This is a unique program offering both language and Social Studies classes taught in Spanish all 4 years:

- 9th grade: AP Spanish 5 and World History 1 and 2
- 10th grade: Spanish Immersion and Global Leadership
- 11th grade: IB Spanish 5 and IB History of the Americas
- 12th grade: AP Spanish Literature and IB Contemporary World History XX Century

Students may earn from 5-15 college credits based on their AP and IB test results when they enter college. That could save you a full quarter of tuition. Contact us if you have questions.

Sincerely,

Michele Anciaux Aoki, International Education Administrator, Seattle Public Schools maaoki@seattleschools.org or 206 252-0191
