**Application for Pilot of
6 - 8 Mathematics Instructional Materials
Seattle Public Schools**

Seattle Public Schools “is committed to ensuring equitable access, closing the opportunity gaps and excellence in education for every student.” The District vision is that “every Seattle Public Schools’ student receives a high-quality, 21st century education and graduates prepared for college, career and life.” One of the District’s core beliefs is that “high-quality instruction is key to our students’ success and is built on a rigorous and relevant curriculum that is aligned to standards, measurable outcomes, positive relationships, appropriate professional development and equitable access to educational opportunities.”¹

1. Please describe the process you use to plan middle school math lessons.
2. Tell us why you are interested in piloting middle school mathematics instructional materials.
3. Share some ideas you have about getting feedback about the curricular resources from students, families and your colleagues.
