It is the policy of the Seattle School Board to allow school personnel to provide health services in accordance with state law. Such services will include but not be limited to:

1) **Treatment**
   School personnel may provide treatment to ill and injured students.

2) **Medication Administration:**
   The administration of medications by school staff is allowed upon written request of the parent/guardian and a legally authorized prescriber.

   The principal or school nurse will designate who will administer a medication. School staff will be trained and supervised by the school nurse in proper medication administration procedures.

3) **Health Screening**
   School personnel shall provide screenings for vision, both near and distance, and hearing.

4) **Health Records**
   The school nurse will monitor student immunization compliance. Records of immunizations will be accessed through the Washington State Immunization Information System (WAIIS).
