Use of the Seattle Public Schools network is a privilege. You must read and agree to follow the network rules below to use your network account.

Seattle Public Schools makes available to students access to computers and the Internet. Through the Internet students may have access to databases, Web sites, and sometimes email. Students might also publish online. Students are expected to use computers and the Internet responsibly and for school related purposes only.

Use of the Seattle Public Schools network is a privilege. Violations of conditions of use may result in that privilege being taken away in whole or in part by school district personnel. All other related student policies are applicable and other consequences including suspension or expulsion may follow. Please review the "Student Rights and Responsibilities" pamphlet.

As a condition of my right to use the Seattle Public Schools Internet service, I understand and agree with the following:

I will use computing resources responsibly

- I will use the Internet and other computer resources for academic activities only.
- I will only play educational games authorized by my teacher, instructor, or librarian.
- I will follow the guidelines for printing set by my teacher or school.
- I will only save material in my folder appropriate for educational use.
- I will not transmit or deliberately access obscene, indecent, harassing, defamatory, or otherwise offensive material in any form.

I will use computing resources safely

- I will not give out my name, picture, address, e-mail, or any other personally identifying information online.
- I will only access chat rooms, bulletin boards, blogs, or post to an Internet site with explicit teacher permission.
- I will not share my password with others.

I will use computing resources respectfully

- I will not deliberately attempt to harm or destroy data on any system on the network or internet.
- I will not damage computer equipment or alter computer settings.
- I will not alter other students' files.

I will use computing resources in a manner that respects the intellectual property of others.

- I will not install, store, or distribute unauthorized software or materials.
- I will turn in work that I have created myself. If I borrow or copy material from other sources, I will properly cite those sources.

I understand that:

- I am responsible for what is done on my computer account.
- School district personnel have the right to review any material sent, mailed, or accessed through a District computer or District provided network account. School district personnel have the right to inspect all material stored on a District computer. By accepting these terms and conditions, students waive any right to privacy or confidentiality to material that was created, sent, accessed, or stored using a District computer or District provided network account.
- District personnel can edit or remove any material that it believes may be unlawful, obscene, indecent, harassing, or otherwise objectionable.
- The district does not promise that the functions of the internet service will meet any specific requirements you may have, or that the Internet service will be error-free or uninterrupted.
- I cannot use computing resources to violate district policies, federal and state laws.
- District administrators have the final say on what constitutes a violation of internet policies. Those violations include but are not limited to all bulleted points in this agreement.

1-to-1 Student Device Usage and Safety Information for Parents/Guardians

Online Learning Students

Please email laptops@seattleschools.org to schedule a return of the device at the end of the school year.

Any Questions, Repairs, Lost or Stolen Device, please call: 206-252-0100

1-to-1 Laptop or iPad (K-2) Program

In Fall 2019, Seattle Public Schools began the implementation of a 1-to-1 laptop initiative. This initiative attempts to address equity gaps by providing every student with a device.

The information provided in this pamphlet provides guidance on proper usage and care of your child's iPad or laptop as well as information about online safety when using the device.

Student Responsibilities

Your child's use of their device, Internet, and programs must comply with school and district policies as outlined in the Network Use Agreement.

- Your child is responsible for all activities that happen on their device (laptop or iPad)
- Your child should not loan their device or device charging adaptor to anyone
- Your child should always log in under their assigned username/password and never share this information
- Never share passwords with anyone (except with your parents/guardians)

Device Care and Maintenance

- Instruct your child to keep all food and drink away from the device and device equipment
- Should damage occur, do not attempt to repair; SPS has trained technicians to perform repairs, [please call 206-252-0100 for assistance](tel:206-252-0100).
- Remind your child to properly save all academic work and any important files using OneDrive
- Supervise what applications your child is using. Discourage the child from attempting to install random software from the internet, including games (unless it is sanctioned by a teacher)
- Provide assistance as needed when inserting cords, cables, and other removable storage devices to avoid damage to the device ports, DO NOT USE EXCESSIVE FORCE. [Please call 206-252-0100 for assistance](tel:206-252-0100).
- Laptops and iPads are fragile, supervise and encourage your child to store their device in a safe and secure location. Inform them to treat it as if it was their own device.
- Keep all air vents free from obstruction.
- **FOR LAPTOPS:** Restart the computer at least once a week to receive important updates.
- **FOR iPads:** Keep your device fully charged, powered on and connected to the Internet to receive iPad

updates.

Web Surfing/Filtering

Seattle Public Schools reserves the right to monitor and record all activities that occurs on these devices. Monitoring tools include the installation of web filtering software. This software records all online activities and applies filtering policies.

- Parents/guardians need to be aware that web filtering is “best effort” and doesn’t prevent access to ALL inappropriate sites
- Parents/guardians should keep the laptop or iPad in a common area where they can watch and monitor the usage of the device, not in individual bedrooms or areas where direct supervision may be hindered.
- Parents/guardians are encouraged to immediately report any inappropriate access to the technician available at [206-252-0100](tel:206-252-0100).

Cyber-bullying

Parents / Guardians should notify the school that bullying is suspected:

- If your child is emotionally upset during or after using the Internet or the phone
- Being very secretive or protective of one's digital life
- Avoiding school or group gatherings

Online Safety/Personal Data

- Talk to your child about online-predators and remind them not to talk to strangers on the Internet and never agree to meet anyone in person that they’ve met online
- Children do not always consider the full consequences of their actions. What may seem innocent in the moment could cause issues down the road. Instruct them to never post confidential or identifiable information online ads, such as their name, address, school, etc. about themselves or another student
- Never upload photos of themselves or other students to the Internet
- Know who is connecting with your children online and set rules for social networking, instant messaging, e-mailing, online gaming, and using webcams.
- Parents / Guardians should review privacy controls on social media accounts to manage what information is exposed to the public. (Visit your child’s Facebook account without logging into your account. Note what information you can learn about your child)

Virtual Private Network (VPN)

- The devices are configured with an automatic always-on VPN. VPN’s allow a device to be connected to the SPS network, even when they are in use at home.
- All activities, including web surfing, file access, and network traffic will go through the district network and subject to policies, controls, and monitoring.

- Take care when inserting cords, cables, and other removable storage devices to avoid damage to the laptop ports. DO NOT USE EXCESSIVE FORCE. [Please call 206-252-0100 for assistance](tel:206-252-0100), if you are having difficulties.
- Laptops are fragile, please keep heavy objects off the laptop, and store device in a safe and secure location. Do not leave the device in the car.
- Keep the air vents free from obstructions.
- **FOR LAPTOPS:** Restart the computer at least once a week to receive important updates.
- **FOR iPads:** Keep your device fully charged, powered on and connected to the Internet to receive iPad updates.

Web Surfing/Filtering

Seattle Public Schools reserves the right to monitor and record all activities that occur on these devices. Monitoring tools include the installation of web filtering software. This software records all online activities and applies filtering policies.

- All web traffic is logged and recorded.
- Students should apply common sense and responsible use of technology, such as the Internet
- Inappropriate conduct will be reported to school administrators and could result in disciplinary action and reduced access to the device.

Cyber-bullying

- Cyber-bullying is a serious issue. As with web-traffic, SPS records activities that occur on any SPS managed device.
- Evidence of students acting as an instrument or are a victim of cyber-bullying will be referred to School Administrators. Use good judgment, “trust your gut” - if it feels wrong, then it most likely is wrong and should be reported.
- Students are encouraged to report ALL incidents of cyber-bullying, whether direct or observed.

Online Safety/Personal Data

- Don't talk to strangers on the Internet and never agree to meet anyone in person that you've met online.
- Never post confidential or identifiable information online, such as your name, address, school, etc.
- Never post location information about yourself or other students on the internet such as Facebook.
- Never upload photos of yourself or other students to the Internet
- Review privacy controls on social media accounts and take care to manage what information is exposed to the public.

Virtual Private Network (VPN)

- The laptop is configured with an automatic always-on VPN system.
- All network traffic sent to-and-from the laptop goes “through” the district network and subject policies, controls, and monitoring.
- **For Laptops:** VPN's prevent the use of network printers at home, but a USB connected printer will function.
