Minutes:

Today's agenda was to approve the membership of the adoption committee, with new applicants added since the last meeting on May 31, 2018. MaryMargaret Welch submitted a list of all the groups and individuals the adoption coordinators reached out to in an effort to increase diversity of the adoption committee. They identified several more applicants of color, and expressed the feeling that they had done a lot of work trying to make the committee more diverse in terms of ethnicity, gender and socioeconomic/geographic regions of Seattle. The adoption committee membership was voted on and approved unanimously by the Instructional Materials Committee.
