

REFLECTION: *What Did We Accomplish?*

Project Review and Reflection Tool

The classroom teacher and arts partner (teaching artist or arts organization) use this form to reflect on the work they have completed and draw out lessons learned that can inform their collective and individual work in the future.

- What were our lessons learned?

- What were the successes to inform the future?

- What would we would like to continue in the future?

- What student feedback did we get?

- How are we sharing back what we've accomplished with the school community?

- Through this experience I learned...
 - **Classroom Teacher** (include tips and tricks from arts partners that you can integrate into your practice)

 - **Arts Partner** (include things learned that will support your work in public schools)
