

September 14, 2020 Title IX Task Force Meeting Minutes

1. Welcome
2. Update on Annual Report
 - TM spoke regarding her presentation to the School Board's Operations (Ops) Committee in August, including that the Ops Committee members indicated they had additional questions but were limited by time.
 - Request was made for TM or NW to proactively follow up with the Ops Committee to get on a future agenda and answer any questions; TM and NW agreed to do so.
3. Revisions to Superintendent Procedure 3208
 - NW indicated the District needs to make changes to 3208SP (Sexual Harassment) to come into compliance with the new Title IX Regulations, which came into effect in August. Ask is to have Task Force Members review a redline version and submit comments.
 - Plan is to make the minimal changes needed to quickly come into compliance with the new regulations; Task Force may further amend 3208SP in its work and/or as part of its Final Recommendations.
 - NW will email the group a redline version of 3208SP, OSPI guidance, and the Washington State School Directors Association Model Policies.
4. Consideration of New Members/Input
 - Due to number of task force members who can no longer continue in the group, request to invite/reach out to additional community networks to obtain more input from community members, particularly as the Task Force extends beyond its initial 1-year timeframe.
 - NW will follow up with language used in past emails from the Title IX Office for community group outreach.
5. Housekeeping
 - Next meeting: October 12, 2020 at 4:00pm via Teams.
 - NW will send a survey to get feedback on what day of the week, week of the month, and times work best for members moving forward.
6. End of meeting
