Out of District Enrollment by Year and Grade Level

Table: 1-C

Note: Historical enrollment numbers of students with unknown attendance areas differ from the 2010 Annual Enrollment Report due to a change in the process used to identify attendance areas based on students' addresses. Also, in 2007 a data processing error eliminated address coordinates for many students, which resulted in a higher number of unknown attendance areas that year.

 *2011 and forward counts reflect new system reporting and inclusion of all service students (including students receiving Motor, Vision and Communication Services). Prior to 2011, Motor, Vision and Communication Service students were not included in report counts. For detailed data reflecting the transition from the old system to the new system, refer to the data tables in Section 8.
