SCHOOL BOARD ACTION REPORT

DATE: November 8, 2018
FROM: Denise Juneau, Superintendent
LEAD STAFF: Stephen Nielsen, Deputy Superintendent

For Introduction: December 19, 2019
For Action: January 9, 2019

1. TITLE

Approval of Capacity Management Actions for the 2019-20 School Year

2. PURPOSE

The purpose of this action is to authorize expenditure of funds within the capital budget for annual capacity management actions to support projected district homeroom capacity needs for the 2019-20 school year. Approval will allow planning for new classrooms to proceed, including the planning necessary to relocate portables as discussed in the Board Action Report titled BTA IV: Award Contract K5105 for Relocation and Setup of Portable Classrooms at Multiple School Sites, to be presented to the Operations Committee in January 2019.

3. RECOMMENDED MOTION

I move that the Board authorize allocation of up to $2,069,000 from BEX IV and BTA IV capital funds to implement annual capacity management actions in spring semester 2018-19 and summer 2019 to support projected district homeroom capacity needs for the 2019-20 school year and authorize the Superintendent to take the necessary steps to implement the actions as detailed in the attached Capacity Management recommendations.

4. BACKGROUND INFORMATION

a. Background

Board Policy H13.00, Capacity Management, requires an annual evaluation of district enrollment and capacity with recommendations for actions to address identified capacity issues. This evaluation was done using 5-year enrollment projections received from Enrollment Planning in September 2018.

New elementary and high school capacity comes on-line in the fall of the 2019-20 school year (Queen Anne Elementary Addition, Magnolia Elementary, Ingraham High School Addition, Lincoln High School), providing space to address increasing enrollment and program needs in those geographic areas. However, because enrollment changes occur across the district, annual capacity management actions are needed in addition to the 2019-20 school openings to support the district’s projected 2019-20 space needs.

See Attachment 1 for district growth rate data.
There is a projected need for 11 new homerooms across the district. This includes up to six portable classrooms as a contingency. Including the contingency will allow the flexibility to address unanticipated changes that may occur in projections or program needs over the next few months while still ensuring the spaces are ready for the 2019-20 school year.

For the schools listed in Attachments 2 and 3, the projected enrollment growth from 2018-19 to 2019-20 ranges from 13 to 34 per school. Among those schools projected to have enrollment increases, for planning purposes, it is assumed that an additional classroom will be needed for every 25 students. Attachment 2 shows the site specific enrollment projections for 2019-20 through 2022-23 for schools potentially needing an additional classroom for 2019-20.

The schools identified as needing a portable classroom are assumed to need the portable classroom to meet the anticipated space needs based on the lack of available space in the building. Other non-capital solutions may be used to accommodate the enrollment growth such as sharing of classroom space, co-teaching, larger class sizes, or adding additional periods to the day such as zero hour classes. The actual number of classrooms will be determined when staffing allocations are determined for 2019-20.

**Elementary and K-8 Schools**
Most of the enrollment projections for K-5/K-8 schools are flat or show a decline in enrollment for 2019-20 with minor exceptions. Unfortunately, several of the schools that have projected enrollment increases are already over-capacity and will likely need an additional portable classroom. See Attachment 3. Capital Planning will continue to monitor enrollment trend data and re-evaluate the need for added classrooms when the February 2019 projections become available.

**Middle Schools**
Most of the enrollment projections for middle schools show an increase but there is sufficient capacity available for the added enrollment with the exception of Robert Eagle Staff. The enrollment projection for Robert Eagle Staff shows an increase for 2019-20 and that trend continues over the next five years. Robert Eagle Staff is currently over capacity. Two additional classrooms will be needed for 2019-20 with the current projection. Staff is evaluating the feasibility and cost of adding two additional portables at the Robert Eagle Staff/Licton Springs site. Non-capital options are also being considered to address the capacity issue and the need for added classrooms will be re-evaluated when the February 2019 projections become available.

**High Schools**
Most of the enrollment projections for high schools show an increase but there is sufficient capacity available at those locations for the added enrollment.

With a 20-classroom addition opening at Ingraham High School in 2019, six portables currently located at Ingraham High School could be available for deployment to support capacity management actions elsewhere in the district.

The opening of Lincoln High School in 2019 provides capacity relief to Ballard and Roosevelt High Schools, although not enough to remove the existing portables. Enrollment at Ballard and Roosevelt is projected to continue decreasing over the next five years but will remain
significantly above right size capacity. It is recommended that the existing portables at these two locations remain in place.

Capacity Management Recommendations
The recommended budget authorization will address enrollment growth needs for 2019-20. It does not fund any changes that might be needed for program changes (Special Education, Early Learning). The recommended budget authorization will fund the following scope:

- School-to-school relocation of existing portables
- Remodeling and systems infrastructure work needed to develop new homerooms in both permanent and portable spaces
- Permitting, design, portable installation and site work associated with portable placement and reconfiguration of existing space
- Appropriate furniture, student/teacher technology and curricula for all new homerooms and program spaces

See Attachment 3 for site-specific Capital Planning recommendations. The specific total quantity, site locations, and grade levels for the new homerooms will be validated based on data outcomes associated with Open Enrollment. Approval of this action item will allow work to begin on 2019-20 annual capacity management actions, bringing all new homerooms online and available for occupancy by the start of school for 2019-20.

a. Alternatives

Do not approve the recommended capacity management actions. If the recommended capacity management actions are not approved the district will not be able to have additional classrooms ready to accommodate projected enrollment growth for 2019-20.

The following primary annual capacity management alternatives were considered in order of preference/recommendation: Available vacant classroom space; conversion of Child Care classrooms; repurposed/reconfigured non-homeroom spaces; repurposed preparation, conference, and planning (PCP) spaces; school-to-school portable relocation; purchase of new portables. The scope recommended in this Board Action Report provides the necessary new homeroom and program support capacity at the least dollar cost of the options examined.

b. Research

The actions in this report are based on staff analysis regarding estimated enrollment growth, existing available space at school sites and ability of school sites to accept placement of portables.

5. Fiscal Impact/Revenue Source

The fiscal impact to this motion will be $2,069,000. The revenue source for this motion is from the BEX IV and BTA IV Capital Levies.

Expenditure: ☒ One-time ☐ Annual ☐ Multi-Year ☐ N/A
Revenue:  ☑ One-time  ☐ Annual  ☐ Multi-Year  ☐ N/A

6. **COMMUNITY ENGAGEMENT**

With guidance from the District’s Community Engagement tool, this action was determined to merit the following tier of community engagement:

☐ Not applicable

☒ Tier 1: Inform

☐ Tier 2: Consult/Involve

☐ Tier 3: Collaborate

Although the total scope of work outlined in this action item is expected to remain constant, the specifics – which schools will need what type of new space – will change to some degree based on the outcomes of Open Enrollment. At the current place in the process, Tier 1 community engagement is recommended.

7. **EQUITY ANALYSIS**

The recommendations in this action item support projected space needs district-wide generated by projected enrollment growth for which capital solutions are available. This action for annual capacity management actions for the 2019-20 school year was not put through the process of a full racial equity analysis.

8. **STUDENT BENEFIT**

The recommendations in this action item support the projected need for additional properly-outfitted homeroom spaces to the extent Capital solutions are available.

9. **WHY BOARD ACTION IS NECESSARY**

☒ Amount of contract initial value or contract amendment exceeds $250,000 (Policy No. 6220)

☐ Amount of grant exceeds $250,000 in a single fiscal year (Policy No. 6114)

☐ Adopting, amending, or repealing a Board policy

☐ Formally accepting the completion of a public works project and closing out the contract

☐ Legal requirement for the School Board to take action on this matter

☐ Board Policy No. _____, [TITLE], provides the Board shall approve this item

☐ Other: ____________________________________________________________
10. **POLICY IMPLICATION**

Per Board Policy No. 6220, Procurement, any contract over $250,000 must be brought before the Board for approval.

This motion supports Policy H13.00, Capacity Management, by authorizing funding to implement annual capacity management recommendations for the 2019-20 school year. This action will support projected district homeroom capacity needs for the 2019-20 school year to the extent Capital solutions are available.

11. **BOARD COMMITTEE RECOMMENDATION**

This motion was discussed at the Operations Committee meeting on December 6, 2018. The Committee reviewed the item and moved it forward to the full Board with a recommendation for approval.

12. **TIMELINE FOR IMPLEMENTATION**

As expenditures for Annual Capacity Management actions are authorized, funding will be committed out of the BEX IV/BTA IV capital funds allotment. These actions are anticipated to occur through spring and summer of 2019.

13. **ATTACHMENTS**

**Notes:**

**Right Size Capacity** is defined as the total number of students a permanent school building can house with all appropriately sized and configured classroom spaces loaded with the maximum number of students per the negotiated agreement on classroom size. For secondary schools, classrooms are not utilized with the maximum number of students due to the class offerings and schedules. This could result in the need for additional classroom space although the enrollment is close to the right size capacity number. Portables are excluded in right size capacity.

**Operational Capacity** is defined as the maximum capacity of a school including existing portable classrooms. This assumes all classroom sized spaces are being used as classrooms.
