

## Seattle Public Schools Federal Grants Overview for 2018-19 School Year

## Federal Programs Executive Summary

Federal Education Programs provide funding support to Seattle Public Schools (SPS) for at-risk students. Each program is defined by title and covers many aspects of our current education system in Seattle Public Schools. Federal programs include funding and guidance for improving system operations and providing additional supports for students. In addition, the federal funds we receive help us to ensure teacher and principal quality, support student acquisition of English language skills, and help in our ongoing efforts to engage our families in their children's education. Students who are at-risk receive additional support to help achieve high academic standards to succeed in school, college, career and life.

Seattle Public Schools received \$24,433,150 (list of grants on page 3) in federal categorical grant funding for the 2018-19 school year. These grant funds go toward students in all schools and programs, and the central office supports we provide to teachers.

#### **Categorical Federal Grants**

## Title I, Part A: \$10,066,240

Title I, Part A builds equity of opportunity for students in kindergarten to grade 12 who may not have the same access to academic programs as their peers in other parts of Seattle.

SPS Title I programs serve students in 34 schools. There are 30 K-5 and K-8 schools, 2 middle and 2 high school programs that receive Title I funds.

The following formula is used to allocate Title I out to schools:

- Any K-12 school with 75% or more Free and Reduced Lunch (FRL) qualified students
- Any K-5 program with 35% or more FRL qualified students
- Any Middle School with 60% or more FRL qualified students

School Building Leadership Teams utilize the funds to provide additional supports for students needing supplemental resources to meet state academic standards. Approximately 50% of the Title I dollars go directly to buildings to fund supplemental academic programs for students (see list on page 3). The remaining Title I dollars provide central office supports for schools in the areas of family engagement (\$205,658), early learning professional development (\$417,334),

instructional professional development (\$693,255), and Title I compliance (\$738,977), supports for our McKinney-Vento/Foster Care students and families (\$750,000), and Summer Staircase at 15 Title I school across the district (\$958,983).

## Title I, Part C: \$84,792

Title I, Part C helps migrant students and youth in our SPS schools to meet high academic challenges by overcoming obstacles created by frequent moves, educational disruption, cultural and/or language differences, and health related problems. These funds provide supports throughout the year and in an extended year model to keep students on track to graduate.

#### Title I, Part D: \$475,756

Title I, Part D provides financial assistance to educational programs for youth in state-operated institutions or community day program, so they have the opportunity to meet challenging State academic content and achievement standards. It provides at-risk students with services to transition from institutionalization to further schooling or employment. SPS focuses the funds to help prevent children and youth who are at risk of dropping out of school. Interagency Program serves 32 students through the King County Detention center. The number of students fluctuates throughout the year.

#### Title II, Part A: \$2,116,361

Title II, Part A provides supports to districts to increase academic achievement of all students by helping to improve teacher and principal quality. SPS utilizes STAR mentors to support teacher preparation and retention of new teachers, continuing professional development for all teachers and the recruitment and hiring of highly effective teachers.

#### Title III, Part A: \$819,198

Title III, Part A provides English language acquisition and language enhancement to our approximately 6500 English Language Learners. These funds help SPS address the unique needs of eligible students who come from linguistically, and culturally diverse backgrounds to develop language proficiency that enables meaningful access to grade level curriculum and instruction.

#### Title VII Indian Education: \$134,526

Title VII meets the unique educational needs and culturally related academic needs of American Indians and Alaska Natives, the education of Indian children and adults, the training of Indian persons as educators and counselors, and it other professions serving Indian people.

#### Title IX, Part A: \$46,170

February 7, 2019 Michael Stone Audit & Finance Committee

Title IX, Part A of the McKinney Vento homeless assistance act provides training, technical assistance and monitoring to support district programs that serve approximately 2000 homeless students.

## Special Education IDEA Part B Section 611: \$11,328,419

Special Education IDEA Part B Section 611 provides supports to students qualifying for services through their Individual Education Plan in Seattle Public Schools. These funds are combined with State Special Education Funds and district funds to support students who need additional Tier 3 supports to meet academic standards.

Program Title	Agency	Total
Special Education IDEA Part B Section 611	OSPI	11,328,419
