

Seattle Public Schools
Drinking Water Quality Program

Summary Status
for
Bryant Elementary School

Updated January 23, 2019

Sinks (S in the report) are not considered drinking water sources. We recognize that there is the potential for students to want to drink from classroom hand-washing sinks, so we test all of those. Where a student's choice to drink from a sink could be a problem, we post a reminder sign, as we do at all restroom sinks.

Status:

All sources meet the policy criteria.

The school will be flushed after any breaks longer than five days.

Follow-up monitoring: Will be performed in school year 2021-2022.
