Note: Numbers do not include students who were on a waitlist but were not enrolled in SPS as of 10/1/2015.

Annual Enrollment Report: 2016-17 Data

There are noticeable racial and socio-economic differences between schools that are perhaps indicative of the geographic locations and the surrounding neighborhoods of these schools. This section evaluates the racial/ethnic composition of schools, free and reduced priced meals data, percent receiving bilingual services, and percent receiving Special Education services.

Demographic data is represented by school, and when a school has an assigned boundary for the attendance area, the data is also presented by that boundary. This allows comparison between the students attending the school and the residents of that attendance area.

Parents/guardians self-select one or more race categories when enrolling a student in SPS. For students counted in the Multiracial category, more than one race category was selected. Students of Hispanic ethnicity are reported as Hispanic, regardless of race. Special Education numbers include all students who are eligible for Special Education services; see Section 8 for more information. Starting in 2015-16, ELL services were available in all schools.
