**For Introduction:** May 1, 2019 **For Action:** May 15, 2019

## 1. TITLE

Satterberg Foundation Elementary Feeder School Grant

## 2. <u>PURPOSE</u>

This Board Action Report details the grant to be received from the Satterberg Foundation in the amount of \$970,000 for the 2019-2020 school year.

## 3. <u>RECOMMENDED MOTION</u>

I move that the Board authorize the Superintendent to accept the Satterberg Foundation Elementary Feeder School grant funds in the amount of \$970,000.

## 4. <u>BACKGROUND INFORMATION</u>

a. **Background:** Previously the Nesholm Foundation reached out to the Satterberg Foundation to share the widely recognized gap-closing successes from their "Kids in the Middle" investment at Aki Kurose MS, Denny International MS and Mercer International MS. As a result, the Satterberg Foundation met with District and school personnel to discuss opportunities to partner together to expand that work.

The principals of the three middle schools identified a critical area of need that would greatly enhance the success of our students, particularly as it aligns to our district-wide focus on elevating the academics of our African American Males and other students of color: intervene earlier by focusing on the highest need feeder elementary schools. Although these three middle schools are doing some of the state's most successful gapclosing work, too many students of color are starting 6<sup>th</sup> grade far below standard in literacy. By intervening at our highest needs elementary schools, we will be able to close the gap even further and earlier on. The Satterberg Literacy Initiative provides grant funds to 10 feeder elementary schools to improve student literacy achievement.

Satterberg Foundation Elementary Feeder School Grant is now in its second full year of implementation. In alignment with the theory of action for the Nesholm Foundation, the Feeder Elementary Grant focuses on: developing teachers' knowledge, skills and practices in reading and writing instruction; maintaining high professional standards;

applying research tested instructional practice; and developing school leader skills in leading this instructional transformation.

The following are the feeder elementary schools that currently receive grant support: Aki Feeder Schools: Dunlap, Emerson, Graham Hill, Martin Luther King Jr. Denny Feeder Schools: Concord, Highland Park, Roxhill, West Seattle Elementary Mercer Feeder Schools: Hawthorne, Van Asselt

During the 2016-2017 school year, The Satterberg Foundation provided initial funding to begin supporting the elementary feeder schools. Using these funds, the district purchased literacy materials for several feeder schools and led the hiring of an assistant principal on special assignment and the three literacy coaches in June 2017.

The first full year of implementation of the Satterberg Initiative was the 2017-2018 school year. The 10 schools worked collectively and were grouped in pathways. Each of the schools in the three pathway feeder patterns received highly skilled literacy coaching support from a literacy coach, aimed at supporting the adoption of the new literacy curriculum and in supporting the critical approach of small group instruction in grades 4 and 5. Leading the work was an assistant principal on special assignment whose responsibilities included assessing the strengths and needs in each of the schools, working with the coaches on professional development in the schools, providing leadership and support to the literacy coaches, charting a strategic plan for improving instruction and learning over the next 5 years, delivering professional development for the literacy coaches, principals and teachers, and working collaboratively with building principals on strategic and aligned improvements to instructional practices, formative assessment use, and Tier 2 interventions. To build upon and continue the momentum of the literacy work that the Early Learning Department had been doing, the Satterberg Initiative partnered with the department. The schools also received funds for leadership professional development, teacher professional development, texts, materials and program support.

For the 2018-2019 school year a fourth literacy coach was brought on board to specifically support Concord International Elementary school in order to meet that school's unique professional development needs. The literacy coaches continue to work in pathways to support the literacy instructional practices in their schools and to foster teacher leadership through Capacity Builders Professional Development, once again led in collaboration with the Early Learning Department. The grant continues to support an assistant principal on special assignment to oversee the literacy coaches. The grant also continues to support leadership development, teacher professional development, texts, books and materials.

Next year, 2019-2020, during the third year of full implementation, efforts will be expanded to primary grades and will continue to support the ongoing learning needs of intermediate teachers through expert literacy coaching, professional development for teachers, and strengthening alignment of practices, systems and structures that support literacy through coaching support, principal engagement and professional development.

Background on the Satterberg Foundation: Their mission is to "strengthen our communities by promoting a just society and a sustainable environment." Their vision includes a "world in balance with vibrant communities in which all people enjoy the opportunity to grow and thrive." Included in that vision is access to education.

Background on the Nesholm Foundation Kids in the Middle Grant: Since 2002-03, the Nesholm Family Foundation has provided over \$7 million to the District in support of the Kids in the Middle grant. This grant, awarded each year to the three highest poverty middle schools, Aki Kurose, Denny International, and Mercer, focuses on literacy improvements as the key to student learning and achievement. To this end, the Kids in the Middle initiative works to develop teachers' knowledge, skills and practices in reading and writing instruction; maintain high professional standards; and apply research tested instructional practice. These three middle schools have demonstrated strong academic growth in the areas of literacy and math because of the support from the Nesholm Foundation

- b. **Alternatives:** The main alternative to receiving this grant to enhance supports and resources for teachers and leaders around literacy instruction would be to rely on funds and professional development available through the Curriculum and Instruction Department and through Title 1. This is not the preferred option due to limited resources available, particularly given the current budget climate and the amplified needs at high poverty schools for high-quality professional development and given the high number of novice teachers serving the students in our Satterberg schools.
- c. **Research**: The Satterberg Literacy Initiative has already seen an impact on teacher practice and student achievement after one year. Seven out of ten schools demonstrated an increase of students meeting standard on the third grade Smarter Balanced Assessment from school year 2016/17 to school year 2017/18. The coaches work with teachers to improve research-driven instructional practices designed to meet all learners. One principal wrote of one of the coaches after she delivered some professional development from her staff, "You did an AMAZING job in helping teachers analyze their students' data and reflecting on each other's teaching practices and making plans for next steps." This improvement and alignment of practice and collaboration is essential for improving students' literacy skills.

#### 5. FISCAL IMPACT/REVENUE SOURCE

Fiscal impact to this action will be an acceptance of funds in the amount of \$970,000. Funds are
in direct support to the 10 Satterberg Elementary Schools currently being served by the grant
funds. Approximately \$810,000 is allocated to support the cost of the 5 staff members (4
coaches and 1 administrator) while the remaining funds support professional development and
supplies.

Expenditure:	One-time Annual Multi-Y	Year N/A
Revenue:	◯ One-time ☐ Annual ◯ Multi-Y	Year N/A

## 6. COMMUNITY ENGAGEMENT

With guidance from the District's Community Engagement tool, this action was determined to merit the following tier of community engagement:
☐ Not applicable
☐ Tier 1: Inform
☐ Tier 2: Consult/Involve
☐ Tier 3: Collaborate

We have engaged principals and teachers in Tier 1 and Tier 2 community engagement in developing the grant proposal. Tier 3 community engagement with families and staff is an expectation as we continue to implement the grant and improve teaching and learning in the area of literacy at the 10 elementary schools. Through family literacy nights and student conferences, families will learn strategies to support the strengthening of their children's reading and writing skills. This is an identified future focus area in the Satterberg Strategic Plan.

## 7. <u>EQUITY ANALYSIS</u>

Using the Seattle Public Schools Racial Equity Analysis Tool the following lessons have been identified as next steps:

- 1) Continued partnership between SPS school teams, school communities, and SPS central staff is needed to identify school specific family engagement literacy strategies.
- 2) Intentional coordination across stakeholders (City Levy, SPS initiatives, and Satterberg) is needed to continue to align professional development and instructional practices.

The purpose of this grant is to promote educational equity in our highest poverty, most diverse schools by providing the resources needed (teacher and principal professional development, literacy coaching support, enhanced family engagement, books and materials) to ensure high-quality teaching and learning in every classroom and academic success for each and every student. Equitable outcomes desired from this grant are the closing of the opportunity and achievement gaps in our schools, where students regardless of race, socio-economic status, English Language proficiency and gender achieve at the highest levels in literacy. We will be accountable for results to our students and families and will work with Research, Evaluation and Assessment (REA) to monitor and evaluate our efforts.

The Satterberg Literacy Initiative is a targeted investment approach that will support SPS's Strategic Plan and other District initiatives. The District will continue to partner with Satterberg schools to ensure that Racial Equity Analysis are fully integrated into the Satterberg Literacy Initiative.

#### 8. STUDENT BENEFIT

As a result of these grant funds, students in the 10 identified schools will be given increased opportunities to experience high-quality literacy instruction in every classroom. Students will experience more alignment of high-quality instruction and pedagogy as well as assurances that they will be given access to high quality, standards-based core curriculum and intervention programs.

## **Accountability and Evaluation of Benefit for Students**

As a part of this grant, we are committed to measuring progress in implementation and outcomes for students. In connection with the Curriculum and Instruction evaluation plan for the K-5 Literacy Curriculum Adoption and the Multi-Tiered Systems of Support implementation metrics, we will measure progress within the following categories for the duration of the grant:

- Fidelity of implementation of core curriculum, tier 2 interventions and balanced literacy pedagogy in every classroom (as measured by observation)
- Student progress monitoring mid-year and end-of-year using agreed upon assessments, such as (1) Fountas & Pinnell Benchmark Assessment, (2) Scholastic Reading Inventory, (3) Systematic Instruction in Phonological Awareness, Phonics, and Sight Words, and (4) Smarter Balanced Assessment
- Implementation of data analysis and progress monitoring systems in all 10 schools as part of Multi-Tiered Systems of Support initiative
- Improvements in Staff Climate Survey using items such as (1) Staff share a common understanding of instructional best practices; (2) I have access to strategies and materials to support all learners in my classes; (3) The school has a consistent process for identifying students who struggle academically; (4) The school implements a clear plan of action when a student struggles academically.

## 9. WHY BOARD ACTION IS NECESSARY

Amount of contract initial value or contract amendment exceeds \$250,000 (Policy No. 6220)
Amount of grant exceeds \$250,000 in a single fiscal year (Policy No. 6114)
Adopting, amending, or repealing a Board policy
Formally accepting the completion of a public works project and closing out the contract
