Notification of Rights under the Family Educational Rights and Privacy Act (FERPA)

Under FERPA, parents/guardians of students under age 18, and students over 18 years of age ("eligible students") have certain rights with respect to the student’s education records. If the student is 18 years old, even if living with the parent/guardian, the student has all the rights under this Act. These rights are:

1. The right to inspect and review their education records within 45 days of the day SPS receives a written request.

Parents or eligible students who wish to inspect their child’s or their education records should submit to the school principal a written request that identifies the records they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student’s education records that the parent or eligible student believes is inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA. If SPS decides not to amend the record, SPS will notify the parent/guardian or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent/guardian or eligible student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the education records of a student, except to the extent that FERPA authorizes disclosure without consent. One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests.

A school official is a person employed by SPS as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a student teacher; a person serving on the School Board; contractors (a person or company with whom SPS has contracted to perform a special task, such as an attorney, auditor, medical consultant, or therapist); consultants; volunteers; or a parent or student serving on an official committee or assisting another school official in performing his, her, or their duties.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his, her, or their professional responsibility.

Upon request, SPS also discloses education records without consent to officials of another school where a student seeks or intends to enroll or is already enrolled.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by SPS to comply with the requirements of FERPA. Written complaints should be directed to Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue S.W.; Washington, DC 20202.
Under FERPA, SPS may disclose appropriately designated “directory information” to anyone without written
consent, including but not limited to parent-teacher organizations, the media, colleges and universities, the
military, youth groups, and scholarship grantors, unless you notify SPS in writing that you do not want the
information released in accordance with the procedures outlined on this form.

The following information is considered directory information:
Parent/guardian and student name, home address, home telephone number, home email address, student
photograph or video, student date of birth, dates of enrollment, grade level, enrollment status, degree or
award received, major field of study, participation in officially recognized activities and sports teams,
height and weight of athletes, most recent school or program attended, and other information that would
not generally be considered harmful or an invasion of privacy if disclosed.

Information about the Release of Directory Information for Students in Grades 9-12
As a parent/guardian of a high school student or an eligible student (reached 18 years of age), you
have the right to choose among three (3) options on whether your student’s (or your) directory
information is released or not. (Go to next page to view the available options.)

Military Requests for Directory Information
Under federal law, United States military recruiters are entitled, upon request, to receive the names,
telephone numbers, and addresses of “secondary school students,” unless the parent/guardian or eligible
student denies consent to release directory information to the military by selecting Option B or Option C. The
military typically requests this information in October of each academic year. If you do not want
information to be released to the military, you must select Option B or Option C and return this form by
October 1 to ensure that your selection is recorded in time.

Even though selecting Option B or C means that SPS will not release directory information to the military, the
military may gather student information from other, non-school district sources. Additionally, selecting Option
B or Option C does not prevent military recruiters from speaking with your student when the recruiter is on
campus.

Please select one option on the next page and return this form to the school your student attends
by October 1.

SPS considers a response to be consent for Option A if the parent/guardian or eligible student:

1. Submits the form, but does not check one of the boxes OR
2. Does not return the form OR
3. If Option A is selected in addition to other options.

Note, the district cannot control the dissemination of photographs/images or names captured by
non-district sources when students participate in school events open to the general public.
