As a condition of my right to use the Seattle Public Schools Internet service, I understand and agree with the following:

- I am responsible for what is done during my session
- Seattle Public Schools personnel have the right to inspect all material sent over the network
- District personnel can edit or remove any material that it believes may be unlawful, obscene, indecent, harassing, or otherwise objectionable
- The district does not promise that the functions of the internet service will meet any specific requirements you may have, or that the Internet service will be error-free or uninterrupted
- I will not deliberately attempt to harm or destroy data on any system on the network or internet
- I cannot use computing resources to violate district policies, federal and state laws
- I will not install, store, or distribute unauthorized copyrighted software or materials
- District administrators have the final say on what constitutes a violation of internet policies. Those violations include but are not limited to all bulleted points in this agreement
- By accepting these terms and conditions, users waive any right to privacy or confidentiality to material that was created, sent, or accessed on the Internet

Connect to SPS-Guest WiFi with

 Sign in with SPS Account

Sign in with Text Message

Sign in with Password

On Windows Laptops

1. Select the Network icon on the taskbar. The icon that appears depends on your current connection state. If you don't see one of the network icons (or a similar one) shown in the following image, select the Up Arrow (^) to see if it appears there.

2. While at the school, you should see **SPS-Guest** in the list of available networks. Select this network and then select **Connect**.
3. Your web browser will open to the Sign-in Portal. Sign-in with one of the following:
 - a) SPS Account - Staff and Students may use their SPS Account to login to the portal
 - b) Text Message - SPS will send a SMS with a code to connect to the network
 - c) Password - Main office staff will have a visitor password to connect to the network

On MacBook Laptops

1. Click the Wi-Fi icon  in the top menu bar to open the list of available networks. If you don't see the Wi-Fi icon  in the menu bar, choose the Apple menu (the Apple Logo) > System Preferences, then click Network. Select Wi-Fi in the sidebar, then select "Show Wi-Fi status in menu bar".

2. While at the school, you should see **SPS-Guest** in the list of available networks. Select this network to connect.

3. Your web browser will open to the Sign-in Portal. Sign-in with one of the following:

- a. SPS Account - Staff and Students may use their SPS Account to login to the portal
- b. Text Message - SPS will send a SMS with a code to connect to the network
- c. Password - Main office staff will have a visitor password to connect to the network

On iOS Devices – iPads / iPhones

1. From your Home screen, open the **Settings** app. Within Settings, open the **Wi-Fi** menu.
2. While at the school, you should see **SPS-Guest** in the list of available networks to connect.
3. Your web browser will open to the Sign-in Portal. Sign-in with one of the following:
 - a. SPS Account - Staff and Students may use their SPS Account to login to the portal
 - b. Text Message - SPS will send a SMS with a code to connect to the network
 - c. Password - Main office staff will have a visitor password to connect to the network

On Android Devices - Mobile Phones

1. Open the **Settings** app and visit the **Wi-Fi** menu.
2. While at the school, you should see **SPS-Guest** in the list of available networks to connect.
3. Your web browser will open to the Sign-in Portal. Sign-in with one of the following:
 - a. SPS Account - Staff and Students may use their SPS Account to login to the portal
 - b. Text Message - SPS will send a SMS with a code to connect to the network
 - c. Password - Main office staff will have a visitor password to connect to the network
