Article IV – Section A.4

Thirty-two (32) hours for technology learning time for the acquisition and integration of technology competencies payable through the SPS time keeping system for 2022-2023, 2023-2024, and 2024-2025.

Article IV, Section F

SECTION F: TECHNOLOGY LEARNING TIME

Up to 32 hours of per diem pay each year is available for self-directed technology professional learning. This extra pay supports teachers who engage in self-directed technology professional learning to learn how to use data to improve instruction, use digital resources, manage instruction, leverage technology for collaboration and communication, incorporate digital citizenship into classroom instruction, and/or other professional learning in support of technology related district initiatives. This pay is pro-rated by FTE and payable upon proper entry of time through the SPS time keeping system.
