

Linked Middle Schools and Location of Student Services

2024-2025 School Year

Seattle Public Schools is committed to making its online information accessible and usable to all people, regardless of ability or technology. Meeting web accessibility guidelines and standards is an ongoing process that we are consistently working to improve.

While Seattle Public Schools endeavors to only post documents optimized for accessibility, due to the nature and complexity of some documents, an accessible version of the document may not be available. In these limited circumstances, the District will provide equally effective alternate access.

Many students are assigned to their attendance area school regardless of most service needs. For required services not available at every attendance area school, a linked school is generally designated. This provides predictable assignments for students who need these services. Please see the chart on the following pages to find your attendance area elementary school's linked school.

		Special Education resource services are provided at every school. Other services will typically be provided at the linked schools as shown. However, students may be assigned to a different site with appropriate services, as close as possible to the student's home ⁴ . Since there are very few medically fragile students, students may be assigned to a different site with appropriate services. Students who have more than one service need will be assigned individually depending on the combination of services needed. To meet the fluid needs of students, assignments may span the Continuum of Services.
