IV. INFORMATION FOR CONTRACTORS

Roster applications are processed through Procurement Services in Seattle Public Schools. It is the contractor's responsibility to verify that information was entered correctly on the District's Small Works Roster. To check if your business has been accepted and to validate entries for the Small Works Roster, please visit the [Small Works Rosters on the District's web site](#).

IMPORTANT: The District is required by RCW 39.04.151 to annually advertise the existence of its Small Works Roster and to solicit the names of contractors for the roster. Per RCW 39.04.151, the District may require eligible contractors desiring to be placed on the roster to keep current records of any applicable licenses, certifications, registrations, bonding, insurance or other appropriate matters on file with the District.

Persuant to RCW 39.04.151, the contractor must agree and be able to receive notifications and other communications via email.

Applications submitted from responsible contractors during times other than the annual advertising period will typically be processed in five business days and responsible contractors will be added to the roster. Due to the large number of applications the district receives during the annual advertising period, it may take up to 30 days to add the names of responsible contractors to the Small Works Roster during that time.
