SAO CyberSmart Checkup Results

Seattle Public Schools is committed to making its online information accessible and usable to all people, regardless of ability or technology. Meeting web accessibility guidelines and standards is an ongoing process that we are consistently working to improve.

While Seattle Public Schools endeavors to only post documents optimized for accessibility, due to the nature and complexity of some documents, an accessible version of the document may not be available. In these limited circumstances, the District will provide equally effective alternate access.

Executive Summary – Voluntary Cybersecurity Checklist via the SAO (State Auditor's Office)

Purpose: Assess cybersecurity posture of Seattle School District No. 1

Scope: Review of security practices, policies, and controls

Overall, we found that you have implemented many if not all of the recommended basic cybersecurity practices. We commend you for making cybersecurity a priority at Seattle School District No..

Key Strengths

Multi-Factor Authentication (MFA) implemented

Antivirus software fully deployed across systems including facilities

Regular backups and recovery procedures in place

Awareness of cybersecurity best practices and PCI requirements

Areas for Improvement

1

Increase password length for accounts

2

Encourage use of password managers

3

Develop additional written policies

4

Train on both infosec policies and who to call for help
